EnviroServe's Coolants Provide Relief for Nuclear Parts Manufacture

Dunn, NC – A leading manufacturer of nuclear flow control products, switches all of its machining operations to *EnviroServe*' metalworking fluids.

After many months of testing, evaluations and approvals, *EnviroServe* assists in the complete changeover of over 75 CNC and manual machines in the production facility.

EnviroServe Chemicals has a solid customer base of flow control product manufactures and has a line of coolants and metal working fluids specifically designed for valve, strainer, and fitting manufacturers.

For more information on *EnviroServe Chemicals* contact: 910.892.1791 (main) 910.892.5765 (fax) 603 South Wilson Avenue, Dunn, North Carolina 28339. www.enviroservechemicals.com.
