

***Formulated for Performance™***

***FOR IMMEDIATE RELEASE:  
December, 2011***

**Product Spotlight: *EnviroKote™* Zirconium  
Technology Product Expansion**

Dunn, NC – *EnviroServe Chemicals*’ a leader in the development and application of zirconium coating (nano) technologies, today announces the development of their new multi-metal accelerated zirconium conversion coating line. This new line of products has successfully passed all lab and field evaluation testing. "The existing full line of zirconium conversion coatings currently offered has been and are still exceeding their expectations throughout the industry. This new additional line will give our customers even more advantages and better performance. We all know, every finishing operation is different, so why have a one size fits all product?" - Jonathan Ballard, Sales Manager EnviroServe Chemicals.

This new product line will have stand alone, cleaner/coater and manual spray wand versions. The new *EnviroKote™* product line will be available early March 2012.
