

Formulated for Performance™

FOR IMMEDIATE RELEASE:
May. 2014

EnviroServe Chemicals' Receives High Performance Systems Approval from Caterpillar

Dunn, NC – *EnviroServe Chemicals* has been granted final approval by CATERPILLAR INC. for their specification 1E4093B - High Performance Systems. This is the 5th product approval *EnviroServe* has received from CAT.

The product/systems are: *EnviroPhos 3252* / *EnviroSeal 3308* (Iron Phosphate/NCS) for 5 stage washers. This system meets or exceeds all CATERPILLAR performance requirements of the specification 1E4093B – High Performance.

EnviroPhos 3252 is a heavy duty iron phosphate that is designed to enhance corrosion resistance, provide extreme paint adhesion, and increase line production. This product, along with our *EnviroSeal 3308*, exceeds the requirements for pretreatment chemicals of metallic substrates for CAT Specification 1E4093B High Performance Systems.
