

Formulated for Performance™

***FOR IMMEDIATE RELEASE:
February, 2016***

**Current Metal Forming Customer Switches Washer Over to
*EnviroServe Chemicals***

Dunn, NC – One of *EnviroServe's* existing press lubricant customers changes their entire plant over to *EnviroServe Chemicals*.

Testing began with this new customers press lubricant in July 2015. After several months of success in the press department, they have allowed EnviroServe to supply process chemicals throughout the entire manufacturing facility.

The 5 stage pretreatment washer was the last process to be changed over. *EnviroServe's EnviroClean™, EnviroPhos™, and EnviroSeal™* have met all salt spray and coating weight requirements and production is now on going.

For more information on *EnviroServe Chemicals* contact: 910.892.1791 (main) 910.892.5765 (fax) 603 South Wilson Avenue, Dunn, North Carolina 28339. www.enviroservechemicals.com. Sales@enviroserveinc.com.
