

***Formulated for Performance™***

***FOR IMMEDIATE RELEASE:  
September. 2016***

## **EnviroServe Provides Better Service to Large OEM**

Dunn, NC – A large OEM of voice, data, and security products was having rust issues in their powder coating operation. Their current chemical company was unresponsive and seemingly unwilling to help.

*EnviroServe's* technical support team was able to come in and pinpoint the issues causing the rusty parts. Lack of technical service and reliability were the key drivers to make the decision to switch from their current supplier to *EnviroServe*.

*EnviroServe* was also recently awarded the new manual spray wand process in this company's batch powder coating operation in Dallas, Texas. They also have an automated wash line that will be testing *EnviroServe's* process chemicals soon.

For more information on *EnviroServe Chemicals* contact: 910.892.1791 (main) 910.892.5765 (fax) 603 South Wilson Avenue, Dunn, North Carolina 28339. [www.enviroservechemicals.com](http://www.enviroservechemicals.com). [Sales@enviroserveinc.com](mailto:Sales@enviroserveinc.com).
